## End of Term 4, Year-end Reflections at Claremont Primary

12 December 2025

**As we conclude Term 4 at Claremont Primary School, we reflect with pride on a term that demanded focus, discipline and determination from our learners.**

This final term of the year centred largely on preparation for, and the writing of, the end-of-year examinations. Our students approached this period with commendable maturity, demonstrating the study habits, perseverance and responsibility that we have encouraged throughout the year. It has been rewarding to see how much they have grown, academically, emotionally and in their confidence as independent learners.

Across all grades, learners worked steadily through revision, consolidation of key concepts, and the development of critical thinking skills. Their efforts throughout the term were evident not only in their exam performance but also in the positive attitudes, many displayed toward the challenge of formal assessments.

At the same time, Term 4 offered moments of celebration and reflection. Grade-level activities, end-of-year events and classroom traditions helped us honour achievements, strengthen relationships, and bring the school community together as we close another successful academic year.
